Information Letter no. 31-2015

Dear Member Federation,

please find attached information from our Technical Director about a planned U-14 circuit in the future. The attached letter gives you more details and also a calendar for this season in order to start with this project.

Any comments and proposals are welcome.

Thank you for your cooperation.

With best regards,

Max W.F. Geuter
General Secretary

European Fencing Confederation Technical Director

To all national federations, members of the EFC

In the context of EFC Letter no. 25_2015 we propose following continuation of development of proposed project for young fencers in Europe:

- 1) In the season 2015-2016 pilot operation will start driven by recommendations as described here after
- 2) There will be not centralised inscriptions and no regional ranking but Calendar of proposed tournaments will be made available for conveniences of interested organising and participating fencers.
- 3) Upon request the programme of competitions included into Calendar U14 will be published on EFC web site
- 4) Entries for competitions can be done either by clubs or federations directly to the organisers.
- 5) No EFC license is requested in a view that the EFC will not provide any ranking from competitions because expected IT support is not yet available. That can be put in place starting season 2016-2017
- 6) Even during running season 2015-2016 will be possible to propose tournaments for including into updated Calendar U14 upon demand to EFC TD.
- 7) As it was communicated in mentioned EFC Letter there is only one restriction: for U14 Calendar only tournaments containing both genders, girls and boys, can be proposed. However, proposed tournament can contain one or several weapons according to decision of the organisers.

Sincerely yours

Julius Kralik
EFC technical Director

Bratislava, October 13, 2015
